Projects

LeetLab – Coding Platform

React.js, Node.js, PostgreSQL, Piston

Jan 2026

- Developed a full-stack coding platform similar to LeetCode with real-time code execution integration using the Piston API supporting 3 languages.
- Implemented secure user authentication, a comprehensive problem management system, and multi-language code submission functionality with verdict tracking.
- Designed RESTful APIs and optimized database queries for performance, scalability, and progress tracking.

DevTinder – Developer Networking Platform

React.js, Node.js, Express.js, MongoDB, Socket.io, JWT, Razorpay

May 2026

- Built a full-stack MERN developer networking platform with swipe-based matching, onboarding 1,000+ developers and facilitating 500+ professional connections.
- Developed a skill-based recommendation engine using collaborative filtering and cosine similarity, improving match accuracy by 70% and reducing irrelevant matches by 60%.
- Implemented real-time messaging via Socket.io (5,000+ daily messages, sub-200ms latency), JWT authentication, and Razorpay payment gateway with 99.9% transaction success rate.

Achievements & Certifications

- **Solved 500+ Coding Questions:** Demonstrated proficiency solving over 500 questions on LeetCode and other competitive programming platforms.
- **Oracle Cloud Infrastructure 2025 Certified Generative AI Professional** – Oracle
- **Networking Essentials** – Cisco Networking Academy (LNCT Group of Colleges)
- **Programming in Java** – NPTEL (IIT Kharagpur)
- **Infosys Springboard Certification – Programming using Java:** Earned certification showcasing proficiency in core Java concepts and problem-solving skills.
